A dedicated and detail-focused Computer Science student with expertise in Java, OOP, JavaScript, React.js, and Data Structures. Passionate about problem-solving and software development, eager to apply skills to meaningful projects in a fast-paced and innovative setting.

Education

Asansol Engineering College

Bachelor of Technology in Computer Science and Engineering

2020 – 2024

Asansol, West Bengal

- Cumulative GPA : 8.33/10.0
- Relevant Coursework : Data Structures, Database Management

Dr J. N. Mishra College ,BSEB

Senior School Certificate Examination

2018 – 2020

Gaya, Bihar

- Percentage : 72.4

Jai Hind Public School, CBSE

Secondary School Certificate Examination

2016 – 2017

BodhGaya, Bihar

- Cumulative GPA : 8.6/10.0

Technical Skills

Language: Java , JavaScript

Library: React js

Developer Tools: Visual Studio, GitHub

Skill: Data Structures, Web Development, Object Oriented Programming

Projects

Movie Box | *Reactjs , Styled Components*

- Allows users to search for movies by name, fetching all relevant matches from the API.
- Clicking on a movie provides detailed description and information about that specific movie .
- Enhances user experience by providing quick access to movie details in an intuitive manner.
- Repository Link is [🐙 here](#)

Car Rental System | *Built using Java OOPS concept*

- Developed a console-based car rental application that enables users to rent and return cars based on availability.
- Created a rental booking system to calculate the rental cost based on days rented, updating car availability dynamically.
- Designed a menu-driven interface for seamless user interaction, including car rental and return processes.
- Repository Link is [🐙 here](#)

Certification

- Completed a 3-month Database-based training program conducted by **Celebal Technologies**.
- **Accenture North America Data Analytics and Visualization Job Simulation on Forage - June 2024**
